# PUZZLE BOOK 

## VOLUME SEVEN

= for keen puzzlers aged 9 to 105! =

$\diamond \quad$ The reason for producing this Puzzle Book is because I am aware that in this era of the "virus", periods of boredom will creep in and the puzzles can be done as light relief.
$\checkmark \quad$ This document is not connected to any organisation and there are no financial implications involved. This is me giving back to Society which has treated me well.
$\diamond \quad$ This booklet can be printed in black and white or colour and it can be printed page by page if you do not want to print the whole document.

I have a great deal more material to consider for further publications. Do let me know which are your favourite puzzles and I will include more in the next edition.

## ORDERING CARDS

By reading through the instructions put the numbers in the correct order. Using playing cards or numbered cards will make it easier to solve. None of the numbers are in their actual positions. 1 cannot be the first card, 2 cannot be the second card and so on.

## A: Cards 1234

The third and fourth card add up to 7

## B: Cards 12345

At each end there are odd numbered cards The second and fourth cards add up to 3

## C: Cards 123456

The fourth card is a multiple of the first card
The second and sixth cards equal 2 when multiplied together
The second and fourth cards equal the middle card when added together

## D: Cards 1234567

When multiplied together the second and seventh cards equal 21
The 4 is four places away from the 5
The 4 is next to the 6
The 2 is to the left of 1

## E: Cards 12345678

The first and seventh cards equal 8 when multiplied together
The 4 is to the left of the 2
The third and eighth cards equal 12 when multiplied together
The 6 is on the left and three places away from the 7
